BDS Employee of the Month

Marcus Morrow

BDS is proud to announce that Marcus Morrow in production is the November, 2017 Employee of the Month. "I'm just thankful that BDS has kept me around for going on 4 years now," states Marcus. "It took a lot of patience for Terry and Tim to train me so that I could do the kind of job that's needed. It's been a pleasure working with everyone. They are good people, and really fun to be around. As far as the work goes, I'm glad that I get to bounce back and forth between production and shipping, because it's a nice balance. It's fun, and it's been a really good experience so far."

"Marcus is a really great member of the BDS team. He has a really good attitude, and is always helpful and positive," states BDS President Rick Whitman. "He is super supportive and really great at covering people. He's such an easygoing guy, even when he's getting a hard time from the team. He's really reliable, and is basically a rock."

"Although Marcus seems to be just one of the guys, he is really well-versed in assembly, production, and packaging, and is a great asset for BDS," states BDS VP of Marketing Jeff Bunker. "His friendly, upbeat attitude and good natured approach to hard work is contagious. Marcus shares his good vibes with the team just as readily as he does his knowledge of BDS products."

"Marcus is a real asset to BDS. He can fill in well for Terry in shipping, and he's a real asset in production," states Production Manager Tim Bert. "Marcus can train people, and he's really reliable. He is really passionate about what he does, and he does a really good job."

"Marcus is great, he's a really good employee. He works really hard, and he's here all the time," states Terry Lawrence in shipping. "He has a really good work ethic, and he always brings a great attitude to BDS. He is just an all-around fun guy to be around. Marcus never seems to be in a bad mood, and that is really great. He is a quintessential Beaverstate Dental employee."

"Marcus is a great guy to work with and has a very positive attitude," says System Administrator and Scheduler Michael Palma. "His position requires him to divide his time between production and shipping, and

he is equally skilled at both. Being able to do a task well and having a positive attitude about that task are not always found together, but in Marcus' case it is. He is a valuable member of the BDS team."

"Marcus is always really outgoing and nice. When I first started working here he was the one person who said good morning to me every day," says Dani Leenders in purchasing. "He's just really friendly, really outgoing and happy, and always has a smile on his face. He's like a positive energy."

"Marcus is a great guy, and he builds a great quality product," states Morgan Smith in production. "He works really hard, and gets things done. Marcus has taken on a lot of responsibilities in addition to production, such as shipping, and he does a great job."

"Marcus is an integral part of the well-oiled machine that is BDS," says Randy Crete in production. "Just don't say anything bad about the Seahawks, and you are good to go."

"Marcus is a really great teacher, and has really taught me a lot," says Anthony Malandondo in production. "He explains things really well when he's showing me new builds. Marcus is a good co-worker, and is really reliable."
